

# **GRAPHACE PL - 705<sup>®</sup>**

## **OIL BASE PLUNGER LUBRICANT** **NON – GRAPHITE**

**Graphace PL-705** is developed to keep cleaner circumstances. This is composed of selected lubricating oils and high – temperature lubricity additives. Non graphite , but extremely effective surfactant are added to increase wetting ability and film strength. Properly used this lubricant will provide thin uniform protective coating which will minimize wear of shot sleeve and tip.

### **TYPICAL PHYSICAL DATA**

Appearance	Yellow Brown Fluid
Viscosity	700 cp
Specific Gravity	0.92
Flash Point	> 280 °C

### **COMPOSITIONS**

Petroleum oil , Fatty oil , Oiliness agent , Extreme pressure additive.

### **CHARACTERISTICS**

- 1) Keep the production environment clean.
- 2) Excellent lubricating capability under the hardest condition.

### **APPLICATION**

Recommend to use spray system , or drop style automatic lube system.

### **STORAGE**

Keep in a cool place and avoid direct sunlight during summer months and keep from freezing in the winter.

Once opened replace lid and seal tightly.

### **PACKING**

18 kg Pail Can
